## **Conflict of Interest– Declaration**

Tobacco use is a global threat and one of the most dangerous substances responsible for many diseases. Worldwide it is cause of great sufferings and deaths. The impact is not only on the consumers but also affects the family members and innocent by-standers. Passive smoking has become a burning issue gaining global attention leading to great morbidity and mortality. All forms of tobacco are harmful and highly addictive. Many scientific studies have proven the ill-effects of tobacco. Adolescents are the most vulnerable group likely to fall prey to the propaganda of tobacco industry. The life of youth is at risk and the future of the nation is in jeopardy. Its high time that this abomination be removed from our life.
